

FAQ(s)

I want to hire an airport limo. What happens if my plane is late/early?

We, at Seattle Washington Limousine Service, take updates on the flight timings every few hours to make sure that we aren't ever late. This ensures that we're always there on time to pick you up from the airport. Our drivers are thoroughly professional and never leave our clients stuck at the airport even for a few minutes.

Is the Limo stocked with beverages?

Although our limos do not come stocked with beverages, we do make arrangements for some things on the request of our clients. However, additional charges may apply in such a case.

If I choose to hire your Seattle limo service, when is my credit card charged?

We, at SEAWA Limousine Service, charge our clients 48 hours before the scheduled pick up time.

What if I want to cancel the reservation I booked with you guys?

If our clients want to cancel the bookings, we always advise them to call us or inform us as soon as possible. However, please note that there may be cancellation charges applicable.

Is it possible to place, change, or cancel a reservation with your chauffeur?

No, it is not possible. We require that all changes, confirmations, and cancellations related to Seattle limo rentals be called into our service line at (206)-919-2288.

If I place a reservation for 9 hours, and after I get picked up realize that I don't need that much, will I get charged?

Yes, you will get charged. This is because hourly limo bookings are billed for the number of hours you ordered. This will be the minimum number of hours we would accept on your order.
